What is a “Tax”?

- **Taxes defined:**

“Tax: A charge by the government on the income of an individual, corporation, or trust, as well as the value of an estate or gift. The objective in assessing the tax is to generate revenue to be used for the needs of the public.

A pecuniary [relating to money] burden laid upon individuals or property to support the government, and is a payment exacted by legislative authority. In re Mytinger, D.C.Tex. 31 F.Supp. 977,978,979. Essential characteristics of a tax are that it is NOT A VOLUNTARY PAYMENT OR DONATION, BUT AN ENFORCED CONTRIBUTION, EXACTED PURSUANT TO LEGISLATIVE AUTHORITY. Michigan Employment Sec. Commission v. Patt, 4 Mich.App. 228, 144 N.W.2d 663, 665. ...”

[Black’s Law Dictionary, 6th Edition, page 1457]

- **Only legitimate purpose of taxes is to support government, not the people or constituents:**

“A tax, in the general understanding of the term and as used in the constitution, signifies an exaction for the support of the government. The word has never thought to connote the expropriation of money from one group for the benefit of another.” [U.S. v. Butler, 297 U.S. 1 (1936)]

To lay, with one hand, the power of the government on the property of the citizen, and with the other to bestow it upon favored individuals to aid private enterprises and build up private fortunes, is none the less a robbery because it is done under the forms of law and is called taxation. This is not legislation. It is a decree under legislative forms.

Nor is it taxation. ‘A tax,’ says Webster’s Dictionary, ‘is a rate or sum of money assessed on the person or property of a citizen by government for the use of the nation or State.’ ‘Taxes are burdens or charges imposed by the Legislature upon persons or property to raise money for public purposes.’ Cooley, Const. Lim., 479.

[Loan Association v. Topeka, 20 Wall. 655 (1874)]

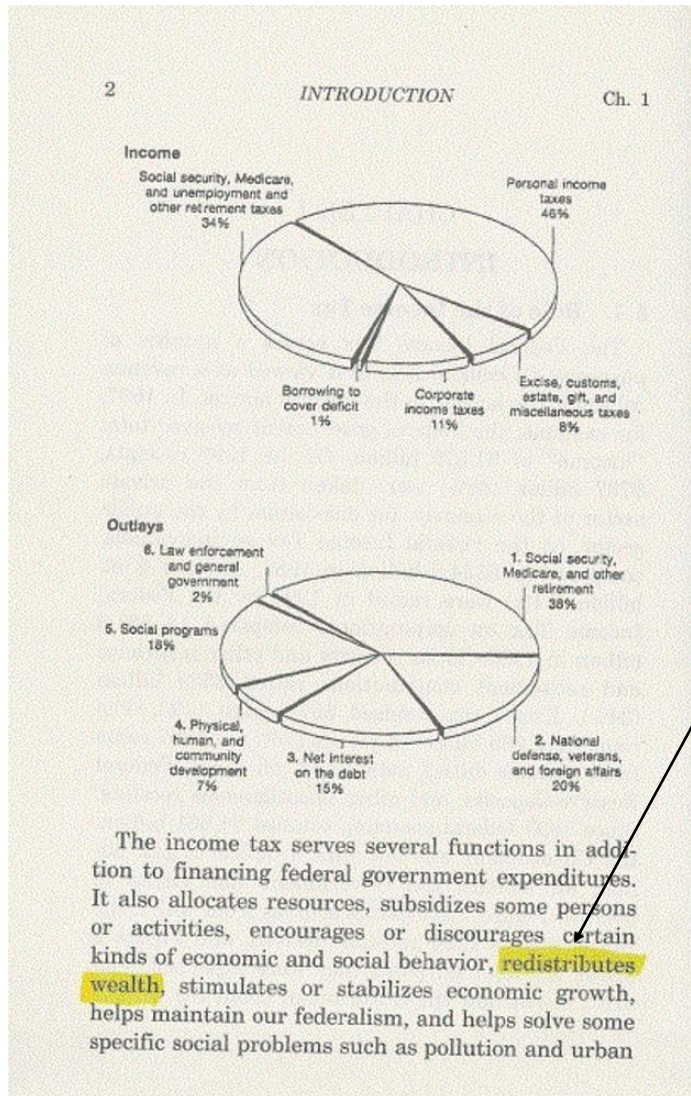

“Political Heresy”

- The U.S. Supreme Court has said that when the government abuses its taxing power to redistribute wealth, any statute which implements it is not “law” and constitutes “political heresy” that is completely contradictory to the concept of “republican government” that is the foundation of our system of government:

"In Calder v. Bull, which was here in 1798, Mr. Justice Chase said, that there were acts which the Federal and State legislatures could not do without exceeding their authority, and among them he mentioned a law which punished a citizen for an innocent act; a law that destroyed or impaired the lawful private [labor] contracts [and labor compensation, e.g. earnings from employment through compelled W-4 withholding] of citizens; a law that made a man judge in his own case; and a law that took the property from A [the worker]. and gave it to B [the government or another citizen, such as through social welfare programs]. 'It is against all reason and justice,' he added, 'for a people to intrust a legislature with such powers, and therefore it cannot be presumed that they have done it [passed a “law”, in this case] . They may command what is right and prohibit what is wrong; but they cannot change innocence into guilt, or punish innocence as a crime, or violate the right of an antecedent lawful private [employment] contract [by compelling W-4 withholding, for instance], or the right of private property. To maintain that a Federal or State legislature possesses such powers [of THEFT!] if they had not been expressly restrained, would, in my opinion, be a political heresy altogether inadmissible in all free republican governments.' 3 Dall. 388."

[Sinking Fund Cases, 99 U.S. 700 (1878)]

Where do your “taxes” go

***WHAT'S WRONG
WITH THIS
PICTURE, FOLKS?***

You Don't Pay "tax" to the IRS!

- Social Security, Medicare, Welfare, FICA are NOT "taxes", they are government "insurance" programs, and all insurance programs are voluntary!
- When "taxes" are used for bribery and "wealth redistribution" instead of supporting the government ONLY, as the law book on the previous pages says, then:
 - All governments, judiciaries, and tax collection systems invariably become corrupt
 - Governments invariably grow out of control because of thirst for money and power
 - The liberties of the people are eliminated one-by-one as taxes are increased and the tax code becomes a means of political control and tyranny
- What laws are violated when "taxes" are used for "wealth redistribution"?
 - [18 U.S.C. 2381](#): Treason
 - [18 U.S.C. 208](#): Conflict of interest

What Exactly Do You Pay to the IRS, Then?

- It is **FRAUD** to call what we pay to the IRS a “tax”!
- What we pay to the IRS is instead a “**donation**” or “**insurance premium**” disguised as a “tax” to make it look mandatory

“Donatio: A gift. A transfer of the title of property to one who receives it without paying for it. The act by which the owner of a thing voluntarily transfers the title and possession of the same from himself to another person, without any consideration.”
[Black’s Law Dictionary, Sixth Edition, p 487]

“Voluntary: Unconstrained by interference; unimpelled by another’s influence; spontaneous; acting of oneself. Coker v. State, 199 Ga. 20, 33 S.E.2d 171, 174. Done by design or intention. Proceeding from the free and unrestrained will of the person. Produced in or by an act of choice. Resulting from free choice, without compulsion or solicitation. The word, especially in statutes, often implies knowledge of essential facts. Without valuable consideration; gratuitous, as a voluntary conveyance. Also, having a merely nominal consideration; as, a voluntary deed.”
[Black’s Law Dictionary, 6th Edition, page 1575]

- The IRS doesn’t maintain “tax records” about you, they maintain records of your “donations”
- The federal income tax system under Subtitle A of the Internal Revenue Code is a “**donation**” program for the municipal government of the District of Columbia, which I call the “District of Criminals”

What Does the Bible Say About This “tax” Scandal?

- **Do not follow a crowd (a democracy, in this case) to do evil!:**
“You shall not follow a crowd to do evil; nor shall you testify in a dispute so as to turn aside after many to pervert justice.” [[Exodus 23:2](#), Bible, NKJV]
- **Do not steal from your neighbor using theft disguised as a “tax”:**
“You shall not steal.”
[[Exodus 20:15](#), Bible, NIV]
- **Be responsible for yourself and don’t depend on government:**
“Make it your ambition to lead a quiet life, to mind your own business and to work with your hands, just as we told you, so that your daily life may win the respect of outsiders and so that you will not be dependent on anybody.”
[[1 Thess. 4:11-12](#), Bible, NIV]
- **Do not bear false witness against your neighbor, for instance by claiming he owes a “tax” that he doesn’t in fact owe:**
“You shall not bear false witness against your neighbor.”
[[Exodus 20:16](#), Bible, NIV]
- **Do not covet your neighbor’s high earnings to subsidize your retirement:**
 - *“You shall not covet your neighbor’s house; you shall not covet your neighbor’s wife, nor his male servant, nor his female servant, nor his ox, nor his donkey, nor anything [including his earnings from labor] that is your neighbor’s.”*
[[Exodus 20:17](#), Bible, NIV]

Government Cover-Up of Scandal

- **IS IT ANY WONDER THE COURTS WANT THE TEN COMMANDMENTS TAKEN OUT OF PUBLIC PLACES AND WHY THEY FIRE SUPREME COURT JUSTICES FOR NOT DOING SO BASED ON THE PREVIOUS SLIDE?**
- **Our government doesn't want you to know that it is violating God's laws and that it is full of criminals! The Bible even tells us why they are inclined to do this:**

*"He who believes in Him [Jesus, the Son of God] is not condemned ; but he who does not believe is condemned already, because he has not believed in the name of the only begotten Son of God. And this is the condemnation, that the light has come into the world, and men loved darkness rather than light, because their deeds were evil. **For everyone practicing evil hates the light and does not come to the light, lest his deeds should be exposed.** But he who does the truth comes to the light, that his deeds may be clearly seen, that they have been done in God."*
[[John 3:18-21](#), Bible, NKJV]

- **The prosecution rests its case**

What should we do about this fraud?

- **ARE YOU MAD YET?.....BECAUSE:**

YOU OUGHT TO BE!

- **People who believe in God cannot subsidize or support this EVIL, because:**
 - It violates God's laws
 - The Bible says:

"The [violence](#) of the wicked will destroy them because they refuse to do [justice](#)." [[Prov. 21:7](#), Bible, NKJV]
 - It violates the first commandment to put God first, instead of Government, first. It is therefore "idolatry" which is the gravest of the sins identified in the bible
 - It injures our neighbor (see Exodus 20:12-17 and Matt. 22:39-40)
 - It subsidizes and encourages greed, tyranny, theft, and dishonesty by our government

Internal Revenue Service (IRS) Records

- The IRS maintains electronic records about you in their computer system called the Integrated Document Retrieval System (IDRS) and the Audit Information Management System (AIMS)
- There are five main types of records IRS maintains in their IDRS system:
 - Business Master Files (BMF): Tracks businesses
 - Individual Master File (IMF): Tracks individuals
 - Non Master File (NMF): Tracks things that don't fit in other files, along with manual assessments
 - Employee Plans Master File (EPMF): Tracks employee retirement plans
 - Individual Retirement Account File (IRAF): Tracks Individual Retirement Accounts
 - Information Return Master File (IRMF): Tracks 1099's, W-2's, etc.
- All IRS records are maintained in large computer mainframes distributed throughout the country
 - All data is batch processed weekly at each computer center
 - The computer centers stay synchronized by flying large tapes from around the country into the Martinsburg Computing Center (MCC)
- Information is recorded using cryptic alphanumeric codes that are not understandable without access to the “code books” and IRS training and reference materials
- All IRS records about you are available by simply requesting them under the Privacy Act, [5 U.S.C. §552a](#) and the Freedom of Information Act (FOIA), [5 U.S.C. §552](#)
- IRS is very secretive and protective of information that could be used to help educate people about the meaning of information in these files because:
 - Knowing what the IRS knows about you eliminates your fear of them, which removes an important means of leverage they use to intimidate us
 - Mishandling or illegal falsification of files by IRS employees can result in personal liability for criminal and civil lawsuits
 - These files allow you to invalidate illegal assessments by the IRS, which means they become uncollectible and must be fixed

What is an Individual Master File (IMF)?

- **The Individual Master File (IMF) is the file that is maintained on biological people like you:**
 - All information is filed by Social Security Number (SSN)
 - This is where your 1040, 1040A, and 1040NR form information is entered
 - Keeps track of all the transactions or changes that the IRS has made to the status of your tax returns
 - Keeps track of all correspondence, letters, and notices sent to and from you
 - Is the place where your “eFile” information is entered
 - Is managed automatically by the IRS’ Integrated Document Retrieval system
- **Each document in the system is identified by a number called the Document Locator Number (DLN). More about that later**

What is IMF Decoding?

- **IMF decoding is intended to accomplish for your federal tax status the same thing that credit repair does for your credit history**
- **The specific purposes of IMF decoding are precisely as follows:**
 - Understand everything the IRS “thinks” they know about you
 - Discover whether their information about you is false or fraudulent
 - Administratively correct any false, fraudulent, or inaccurate information
 - Identify violations of statutes, regulations, and internal procedures
 - Provide evidence proving that assessments against you are illegal and therefore invalid
 - Expose, prevent, or circumvent *illegal* collection activity
 - Provide you with information that is useful in responding to illegal or improper IRS letters and notices
 - Identify specific IRS employees who are falsifying your records and violating tax statutes, regulations, and internal procedures so they can be prosecuted with a Bivens Action
 - Produce evidence of IRS wrongdoing that you can send in to the IRS to have entered into your official IRS administrative record which will immunize you from subsequent illegal criminal or civil prosecution
- **IMF decoding can be done:**
 - Inexpensively and automatically by computer using the Master File Decoder software available on the SEDM website
 - Manually by human labor, which tends to be very expensive, time consuming, and especially error prone

Why is IMF Decoding Important?

- **IMF decoding is very important!**
- **A good IMF decode may (but not necessarily will):**
 - Eliminate fear caused by ignorance about what the government knows or doesn't know about you
 - Invalidate illegal assessments
 - Stop criminal investigations
 - Stop illegal collection activity
 - Stop harassing IRS notices
 - Prevent civil or criminal prosecution against you
 - Help you to defend yourself in court against wrongful civil and criminal lawsuits
 - Provide powerful evidence that can be used to prosecute specific IRS agents who have violated the tax laws and internal IRS procedures
 - Save TONS of money and headaches
 - Scare the IRS into treating you more respectfully next time
- **WARNING: We cannot guarantee specific results, because we don't have any control over whether the IRS and its employees understands and follows our laws.**

Types of IMFs

- IMF records are available from the IRS as printed, paper reports ranging from two pages all the way up to 30 pages
- There are two types of IMF reports:
 - IMF Specific
 - IMF Complete
- Both IMF report formats have the same basic information
- IMF Complete:
 - Multiple tax years, usually from five to ten years back in time
 - Section for each tax year
 - Usually up to about 30 pages
- IMF Specific:
 - One tax year only
 - Contains slightly more detail than the IMF complete
 - From two to five pages in length usually

Additional Specialty Information

- **Additional specialty information can be requested from IRS under FOIA to clarify the content of the IMF Specific or IMF Complete reports**
- **Most specialty information is produced by the IRS' Audit Information Management System (AIMS)**
- **Example Specialty Information:**
 - **23 C assessment certificates**: Required to prove lawful assessments
 - **ICS History Transcript**: Text journal history of your case
 - **Additional assessment documentation**: Includes many different types of forms)
 - **AMDISA Report**: Status of entity within the Audit Information management System. Also used to determine what type of activity or “person” IRS thinks you are
 - **TXMODA Report**: Used to identify illegal Substitute for Returns (SFRs)
 - **DDBKD Report**: Citizenship of entity
 - ...and MUCH more
- **Specific examples where specialty information is required:**
 - Criminal Investigation is in progress by the Criminal Investigation Division (CID)
 - Illegal Substitute For Returns (SFRs)
 - Time-barred assessments
 - Illegal penalty assessments
 - Illegal collection activity
 - IMF is put in freeze mode and manually edited to bypass computer safeguards
 - Transactions are illegally imported from the NMF or the Retention Register to bypass computer safeguards
 - Suspicious errors in IMF

Transaction Codes

- Transactions codes describe changes made to the IMF record over time
- All transaction codes are three numeric digits. Examples:
 - 150: Return Filed, liability assessed
 - 420: Examination indicator
 - 424: Examination request indicator
 - 425: Examination accepted indicator (reverses 424 code)
 - 460: Extension of time for filing
 - 914: Active Intelligence investigation by CID
- Some transactions reverse others:
 - 425 reverses 424
 - Reversed transactions do not appear on the IMF, but can be clearly seen on the TXMOD report
- Each transaction contains a list of subfields that go with it which describe different aspects of the transaction. Each subfield has its own abbreviation. Most common subfields:
 - COLCLOS: Collection Closing Code
 - PRC: Penalty Reason Code
 - PEN CODE: Penalty Code
 - 971-CD: Also called Action Code
 - HC: Hold Code
 - SOURCE-CD: Source Code or reason for this transaction

IMF Codes

- Codes are used in the IMF in keep track of the status of the person, the tax due, and the history of payments
- An example of a code would be the S**Cr**ambled SSN indicator, which is abbreviated “SCS” on the IMF. Below are the valid values for this code:
 - 0 = No scrambled SSN
 - **1 = Two taxpayers have the same SSN**
 - 2 = SSN has been verified not scrambled SSN
 - 8 = SSN has been verified and released this cycle
- For the above code, if the value in the field says “1”, the IMF record is completely invalidated and may not be relied upon to determine your tax liability because the data may not refer to you! This is important stuff, folks!
- A typical IMF can contain up to about 200 different codes
- The Master File Decoder has information about 268 different types of codes contained on various IRS reports
- Many of the codes used are simply abbreviations. The Master File Decoder software has information about 800 different terms and abbreviations found in IMF’s and in the literature that describes them
- We have NEVER decoded an IMF that didn’t have at least one serious problem with it

Researching IMF Codes Further

- The Master File Decoder also contains a detailed list of nearly every code used by the IRS in the “Fields” form
- IMF Codes are also described in several different IRS manuals, including:
 - IRS 6209 Manual:
 - » Available on SEDM Website
 - » Contains description of most IMF codes
 - » Four different versions of this manual appear on the MF Decoder Pro CD: 1976, 1997, 1998, and 2003
 - IMF Operations Manual:
IRS 30(55)(0), MT 3000-353 dated 1-1-96
 - BMF Operations Manual:
IRS 30(52)00, MT 3000-346 dated 1-1-95
 - Automated Non Master File (ANMF):

 - Law Enforcement Manual:

IRS Does NOT Want you to Understand Your IMF!

IRS Does *NOT* Want you to Understand Your IMF!

- Below is Page D-1 of the foregoing manual, listing the IRS 6209 decoding manual
- Note that it says “**This product may not be ordered by the general public**”:

WHY DO YOU THINK THAT IS?

6209 614620 Each
03/2002 Special Handling/See Remarks
ADP and IDRS Information 2001
Document 6209 is a handy reference guide which contains sensitive ADP and IDRS data relative to various components of the IRS. This item is distributed on the IMDDS Program using File Number 231, Cat. No. 01426U. For more information, see Chapter 5 instructions in Document 7130.
M:I:SD:D:TE Internal Use **This product may not be ordered by the general public**

IRS Does NOT Want you to Understand Your IMF!

- **In addition to the foregoing IRS scandal:**
 - The foregoing document, the *IRS Published Products Catalog*, Document 7130, is NOT available to the general public, so that you don't know what they are trying to hide:
 - » It is not available on their website
 - » When we called their order line, they asked "May I ask why you want this document?"
 - » If you want a copy of IRS Document 7130, we have the electronic version on the Family Guardian Website at: <http://famguardian.org/TaxFreedom/Forms/IRS/IRSFormsPubs.htm>
 - IRS removed the 6209 Manual from their website in March of 2003 to make it more difficult for people to interpret their IMF file. You can read an article about this scandal at: <http://famguardian.org/Subjects/Taxes/News/IRS6209Removed-030317.htm>
 - IRS has removed important sections from its Internal Revenue Manual available from its website in response to articles posted on the Family Guardian Website, to hide evidence of its wrongdoing
 - A number of people have used the FOIA to request a copy of the IRS 6209 Manual from the IRS, and their response:
 - » Had several chapters removed
 - » Had all useful information redacted so that it was virtually worthless
- **The above scandal is completely inconsistent with:**
 - The idea of an accountable government that serves the people
 - The Fair Debt Collection Practices Act (FDCPA), which the IRS Restructuring and Reform Act of 1998, section 3466, 12 Stat. 768 says the IRS is subject to. See: <http://famguardian.org/Publications/IRSRR98/IRSRR98.htm>
- **The FDCPA, requires that:**
 - 15 USC 1692g(b): The debt collector (IRS) be able and willing to provide an original copy of the imputed debt liability, which in this case is evidence of a valid assessment that is procedurally correct
 - 15 U.S.C. 1692e: The debt collector (IRS) cannot make any false or misleading representations about the nature of the debt. Making your IMF file virtually unreadable to you by absolutely and defiantly refusing to provide the documents needed to understand it constitutes an attempt to at least confuse or mislead debtor (you).

Illegal Techniques

- **Illegal techniques are methods used by the IRS to falsify your IMF record**
- **Most illegal techniques are accomplished by:**
 - Putting your IMF into “freeze mode” so that manual transactions may be entered
 - Entering false or fraudulent assessment information to create a bogus liability
 - Lying to the computer by pretending to import transactions from the Retention Register that technically don’t even exist
 - Violating internal IRS procedures documented in the Internal Revenue Manual
- **The [Master File \(MF\) Decoder](#) software identifies over 12 different illegal techniques, including such things as:**
 - Assessments outside the Assessment Statute Expiration Date (ASED)
 - Unauthorized extensions to the ASED
 - Illegal values on IMF report, rendering it invalid
 - Illegal transaction importing from the Non Master File using TC370
 - Illegal importations from the Retention Register
 - Illegal time-barred assessments
 - Invalid CP notices sent to “taxpayer”
 - Illegal freezes on IMF account
 - Illegal criminal investigations active

Getting Copies of Your IMF

- You can request a copy of your IMF from the IRS using the authority of the Privacy Act, [5 U.S.C. §552a](#)
- Under [5 U.S.C. §552\(a\)\(6\)\(a\)\(i\)](#), the government has 20 days to respond to your request for information. If the request is large or includes a lot of information, it could take longer, but the government must warn you that there will be a delay
- It's important to keep your FOIA or Privacy Act request for documents as short and simple as possible so that the IRS will not have any excuses for failing to comply:
 - The more pieces of information you ask for on the request, the more excuses the IRS will make
 - Requests for information should be limited to no more than two or three items at most
 - If you have more items to request, send out multiple requests staggered over several days
- The [Master File Decoder](#) software automatically generates several canned customized FOIA requests that are appropriate for your situation and which quickly uncover most types of IRS fraud and abuse
