The Internal Revenue Service (IRS) audited your income tax return for the year printed above and reported the results of that audit to the Michigan Department of Treasury. This is permitted under Section 6103(d) of the Internal Revenue Code.

A review of your account showed that we have no record of receiving your *Michigan Individual Income Tax Return* (MI-1040) for the year printed above. As provided by law, we have computed the Michigan income tax due from available information, using the Michigan taxable income amount printed above. This computation does not consider items like Michigan tax withheld or other credits. You must file an actual Michigan income tax return before the liability proposed above can be adjusted. If you need a form, call 1-800-367-6263. If you were not required to file a Michigan return for the year in question, please explain why and provide substantiating documentation.

If you agree with our computation, please pay the total amount due above. Make your check payable to "State of Michigan," and include the enclosed copy of this letter with your check. Write your Social Security number on the front of your check. A return envelope is enclosed for your convenience.

If you disagree with the adjustments, you may write to the Department of Treasury to request a reevaluation. Please state why you believe the adjustments are incorrect and include any documents (MI-1040, W2, federal redetermination, etc.), that support your claim. Please direct all correspondence and include a copy of this letter to:

Income Tax Projects Unit
Return Processing Division
Michigan Department of Treasury
P.O. Box 30429
Lansing, MI 48909-7929

If we do not hear from you within the next 30 days, we will issue an intent to assess for the total amount due, plus additional accrued interest. If you need any further assistance regarding this matter, please call our Taxpayer Services Section at 1-800-827-4000 or call our Lansing office at (517) 635-4340.
